

Rathbun

INNOVATIVE. TECHNICAL. SOLUTIONS.

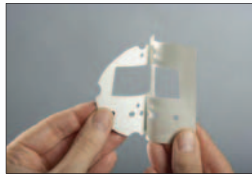

3M THERMAL PAD AND TAPE

- Acrylic thermally conductive interface pads
- Acrylic thermally conductive adhesive transfer tape
- Non-Silicone
- Performance to 130° C

3M ADHESIVE SOLUTIONS

- Very high bond (VHB) tape
- Electronic thin attachment films
- Tapes & adhesives
- Pressure sensitive adhesives

3M EMI/RFI SOLUTIONS

- Electrically conductive gaskets
- Metal shielding gaskets
- Electrically conductive pads
- EMI absorbers & shields
- Electrically conductive adhesive transfer tape

AUTHORIZED STRATEGIC PARTNER

E-A-R VIBRATION & SHOCK CONTROL

- Highly damped elastomers
- Electronic/mechanical applications
- Standard part solutions
- Halogen free option
In-stock, ready to ship

E-A-R ISOLOSS FOAM (LS)

- High density polyurethane foam
- Low compression set
- Shock absorption & vibration isolation
- With & without PSA
In-stock, ready to ship

E-A-R CUSTOM SOLUTIONS

- Custom die-cut parts
- Master rolls available
- Low minimums
- Quick turn-around
- Prototype & productions

RATHBUN SERVICES

Silicon Valley

- Prototypes
- Production volume
- Lamination
- Die-cutting
- Packaging
- Large in-stock inventory

China

- Die-cutting & packaging
- Production volume
- State-of-the-art equipment

ABOUT RATHBUN

Rathbun is a Select 3M Converter based in the Silicon Valley with manufacturing in China.

- > Rathbun offers same day samples, prototypes, and production with state of the art laser, as well as quick-turn and production die-cutting in both the US and China.
- > Rathbun handles small, specialty solutions, to large production runs. We ship to customers and Contract Manufacturers all over the world.
